

GROUNDSKEEPING SAFETY

Head Protection

- Hard Hat

- Baseball Cap

- Straw Hat

Eye/Face Protection

- Safety Glasses
- Chemical Splash Goggles
- Face Shield

Hearing Protection

- Earplugs
- Semi-aural Devices
- Ear Muffs

Respirators shall be provided when necessary to protect employees from breathable hazards.

“Dust Mask;” half or full face respirator.

If half or full face respirator you must be medically qualified and then fit tested.

No beards or excess facial hair if using half/full face respirator.

Hand Protection - Gloves

Body Protection

- Long Sleeve Shirt
- Long Pants
- Coveralls
- Cotton Socks

Foot Protection

- Steel Toed Shoes
- Sturdy Work Shoes
- Toe Guards

Steel-toed safety boots with oil-resistant soles

More on Foot Protection

- Shoes Should be Sturdy
- Have Non-Slip Soles
- Waterproof
- Laces Correct Length

No! No protection

Much better! Non-slip, sturdy, waterproof.

Is this a safe work shoe?

From the Weather

SUMMER:

- Use sun screen (at least SPF 30).
- Wear a hat to protect from sun.
- Wear sunglasses (could be safety glasses*)
- Drink plenty of water.
- Take regular breaks.

* Must meet ANSI Z87-1 requirements

From the Weather

WINTER:

- Wear a hat
- Keep ears covered & warm
- Dress in layers
- Wear gloves
- Take regular breaks
- Drink plenty of water

From Bugs

TICKS:

- Wear light colored clothes.
- Wear long sleeve shirts.
- Tuck pants into socks or boots.
- Wear high boots.
- Wear a hat.
- Use tick repellent (but not on face).

From Bugs

STINGING INSECTS:

- Be aware of where you are working.
- Wear long sleeves.
- Wear high boots.
- Use insect spray.
- Don't jump around or swat at them.
- If allergic, have "kit" with you.

From Poisonous Plants

POISON IVY/SUMAC:

- Be aware of where you are working.
- Wear long sleeves.
- Wear high boots.
- Wear gloves.
- Remove gloves before touching eyes/skin.
- Wash clothes worn separately.

- *Tractors, Riding/Push Mowers/Golf Carts:*
 - Inspect roll over protection (ROPS).
 - Wear safety belts (if applicable).
 - Get on/off safely, not quickly.
 - Practice “slope safety.”
 - Never leave unattended while running.
 - Drive slowly and follow traffic rules.

Lawn Mowing Safety

- Walk around area before mowing to look for objects in grass that could be projectiles.
- Don't mow when raining, lightning, or grass is slippery.
- Start and refuel mowers outdoors; don't refuel when engine is hot.
- When mowing slope: across with push mower, up & down with riding mower.
- Always wear appropriate PPE.
- When cleaning mower blades always disconnect spark plug.

Snow Blower Safety

- Make sure all people and pets are out of the way before you begin.
- Wear appropriate PPE.
- Do not put your hand into the snow blower to remove impacted snow or debris; turn machine off, wait a few seconds, use broom handle or stick.
- Clear snow up and down the face of slopes, not across.
- Do not leave blower unattended while it's running.
- Fill unit with fuel before starting and let cool down before refueling.

Golf Cart Safety

- Operate at safe speed (equivalent to a fast paced walk).
- Ensure all occupants keep arms, legs, feet, and hands inside cart.
- Give pedestrians the right of way.
- Obey traffic signaling devices.
- Engage parking brake when cart not in use.

Golf Cart Safety

- Check tire inflation before operation.
- Check brakes before moving too far.
- Check for possible battery leaks.
- Never leave keys in unattended cart.
- Carry only recommended # of passengers.

How many
people should
ride in this
cart?

No more than two.

BATTERY CHARGING

- Wear Safety Goggles and appropriate hand protection at all times.
- Do not recharge the battery near an open flame or source of ignition.
- Do not smoke near the recharge station.
- Only an approved battery charger should be used (e.g. those designed to shut off automatically when the batteries are fully charged).

BATTERY CHARGING (Continued)

- Pour baking soda on all spilled battery acid before cleaning up the spill.
- Wash skin thoroughly with cold water if you make contact with battery acid.
- Disconnect all battery charger cords before using the golf cart.

Hand Tools:

- Inspect to ensure in safe condition.
- Ensure cutting tools are sharpened.
- Wear appropriate PPE.
- Carry safely.

Is this tool safe to use? →

NO! Handle tapered & taped; should be replaced.

Power Tools:

- Inspect power cords.
- Inspect tools regularly.
- Keep chain saws sharpened.
- Do not disable safety guards.
- Keep feet/hands away from cutting edge.
- Size equipment to operator.
- Always use with GFCI.

WARNING – DANGER !!!

- ONLY USE TOOLS AND EQUIPMENT YOU HAVE BEEN TRAINED TO OPERATE!!!!
- NEVER ATTEMPT TO USE ANY EQUIPMENT UNLESS YOU HAVE BEEN GIVEN PROPER TRAINING!

Hazardous Materials

- Know the hazards of materials you work with.
- Check all container labels.
- Check with your Supervisor about appropriate PPE.
- Clean equipment and clothing properly.
- Know the location of emergency eyewash/showers.

Tips for Safe Lifting

- Plan the Lift.
- Remove anything in your way.
- Pushing is easier than pulling.
- Pulling is easier than carrying.
- Get help for heavy/bulky loads.

Tips for Safe Lifting

- Warm up your muscles with stretches.
- Test the weight of the load first.
- Face the way you need to move.
- Hold the load close to your body.

Tips for Safe Lifting

- Plan where to set the load down.
- Rest more often when it is hot/humid.
- Take more time to warm up your muscles in the cold.
- Take more breaks if using tools/equipment that vibrates.

Shoveling Snow Safely

- Stretch/exercise “lightly” before beginning.
- Push snow instead of lifting it (where possible).
- Walk to where you want to dump the snow, don’t throw it.
- Don’t throw snow over your shoulder or to the side (causes you to twist).
- Pace yourself; take breaks if tired or out of breath.
- Drink plenty of water; avoid caffeine/nicotine before beginning.

- If using a power broom wear safety glasses & remember brush is shooting stones, twigs etc.
 - do not use if people nearby!
- Wear gloves when spreading salt by hand.
- Remember salt can cause snow/ice to refreeze.
- When driving snow removal truck/vehicle **always** use mirrors when backing up.
- Wear appropriate footwear and take smaller steps when walking on snow/ice.

- Inspect vehicles at least weekly to ensure they're in safe operating condition (e.g. tires safe, lights and brakes working, etc.).
- Before operating vehicle ensure horn, lights, and turn signals are working.
- When backing a vehicle: always sound horn three times, use side mirrors, back up slowly.
- Always observe posted speed limits.
- Always give pedestrians the right of way.

YOUR SAFETY CHECKLIST:

- Assignment understood.
- Have proper PPE.
- Have proper tools.
- Tools & PPE inspected & safe.
- Equipment in safe condition.
- Hazardous materials labeled.
- Work area inspected for hazards.

Remember

**YOU NEED TO TAKE RESPONSIBILITY
FOR YOUR OWN SAFETY!
DON'T "SHORT CHANGE" YOURSELF!**
